JODRELL BANK
Weddings under the Stars

Our Unique Heritage

Home to the renowned Jodrell Bank Observatory, a UNESCO World Heritage Sites since 2019, Jodrell Bank Centre for Engagement combines natural beauty with a touch of cosmic wonder. The Lovell Telescope remains the third largest telescope in the world and an icon of Cheshire's scientific heritage.

Our unique location

Set amongst 35 acres of picturesque Cheshire countryside, Jodrell Bank sits amongst tranquil rural villages and rolling hills. The venue offers a range of photo opportunities for newly weds with access to the on-site ornamental gardens, orchards and our rare specimen arboretum planted by Sir Bernard Lovell in 1950.
