WELCOME TO JODRELL BANK

Jodrell Bank is an amazing, unique, and awe-inspiring place. Your journey of discovery starts here.

2 FIRST LIGHT PAVILION

Unlock the inspirational story of Jodrell Bank. Supported by the National Lottery Heritage Fund, this architecturally stunning building is a modern re-working of the meridian line and is the same shape and scale as the dish of the **Lovell Telescope**.

Inside, you can watch our free immersive exhibition film in the **Space Dome** before heading in to our **First Light Exhibition**, The Story of Jodrell Bank.

If you've chosen to also join a Dome Show, head back in to the **Space Dome** to be guided round the Universe by one of our expert Explainers. Before you leave, take time to enjoy the **First Light Café** with terrace overlooking the **Arboretum**.

4 SPACE PAVILION

Discover the mind-blowing science of radio astronomy in our **Science Exhibition**. The **Space Pavilion** is also home to our **Classroom** and **Events Space**.

6 STAR PAVILION

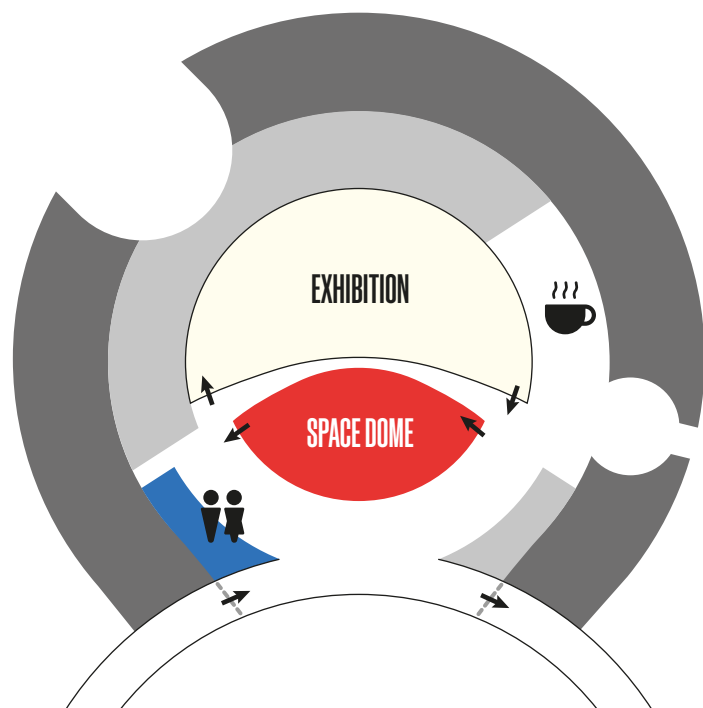

The **Star Pavilion** houses our **Wolfson Auditorium** for school group sessions, talks and special events.

7 PLANET PAVILION

Exit via the **Planet Pavilion** and see our popular **Clockwork Orrery**, a mechanical model of the solar system. It's also where you'll find our **Gift Shop** and **Planet Café**. Please note that the Planet Café is open at weekends only.

OUTDOORS

Explore over 35 acres of beautiful grounds and **Arboretum**. You'll find plenty of picnic areas around the site including our **Comet Lodge**, a cosy indoor picnic space complete with wood burner.

You can also stroll along our **Exhibition** and **Telescope Pathways**, and don't miss our outdoor exhibits including the ever-popular **Whispering Dishes**.

Please remember that we share this site with an abundance of wildlife and carefully manage the grounds so as to cause minimal disturbance. This is why you'll see wildflower planting, regenerative works, and large sections of grass left unmown. Our grounds also include a number of open ponds. We ask you therefore to be aware of the dangers of open water, and of ice during colder spells. Ponds are not for play and we kindly ask that children are supervised at all times.

Proud to be part of

Please be aware that we operate CCTV on this site.
